

Your mailbox
– secure style
at your entrance

ME|FA

We take care of your mail

A story about you...

Your mailbox is one of the first things that your guests, neighbours and passers-by notice about your home – it's almost like an outdoor business card.

With its form and colour the mailbox tells a little story – also about you, its owner.

Is the mailbox classic, simple and modest? Or is it lively, modern and daring in its design? Have you chosen an entirely neutral or a more distinctive colour? Does your mailbox draw attention to itself – or is it as discrete as it can be?

...told by your mailbox

MEFA offers three series and more than 30 different mailbox models – and we regularly introduce new, exciting designs.

Our mailboxes are therefore as different as the people who use them.

This brochure gives you an overview of the many choices available to you when selecting a mailbox to suit you and your home.

For further information about MEFA's mailboxes, their location, installation and maintenance, please visit our website, me-fa.com

Have fun!

Made of a solid material

The architecture of your house, its surroundings and your personal taste determine which material you should choose for your new mailbox.

Many of the models are available in powder coated galvanised steel in all colours, so that you can let your imagination run wild (see page 6). Choosing galvanised steel gives you a more rustic look.

If you want a mailbox with a patinated finish, then copper is one exciting option. Copper obtains its characteristic green colour over time. Stainless steel, on the other hand, retains its clean, pure look year after year.

A mailbox made from aluminium is the best option if you want a light mailbox and if you live in a climate requiring high weather resistance.

MEFA gives you the options – the choice is yours.

Accessories that make a difference

You have plenty of options to choose from when combining the right solution. The main thing is of course the mailbox itself. How large and spacious should it be, and how should it look?

But your choice of pole, name plate and any lighting also help make your mailbox unique. For example, you can choose between arched and square poles that make the mailbox stand out in different ways, each with their combined solution.

Read more on pages 24-27 about MEFA's range of quality accessories to match your mailbox and create added value.

12-year guarantee against rust penetration on all MEFA mailboxes

You choose the colour

Colours always add a bit of spice to life.
For a small additional charge you can therefore
choose exactly the colour you want for your
MEFA Judo (640), MEFA Jade (870), MEFA
Quartz (825) or MEFA Pearl (872) mailbox.

Choose between more than 60 different RAL
colours from the entire rainbow palette.
All of a robust, factory-finished quality.

You can make the colour match existing parts
of your house, for example. Or you can play
around with contrasts and choose a distinctive,
signal colour to bring new life to your entrance
area.

See all the colours at **me-fa.com**.

Your mailbox – your design

MEFA offers a wide and dynamic range of products from the largest Nordic manufacturer of mailboxes, parcel mailboxes and mailbox systems.

We always focus on continually developing the design, functionality and quality of our mailboxes. And we give you the chance to customise your mailbox if you so wish, while offering competitive prices.

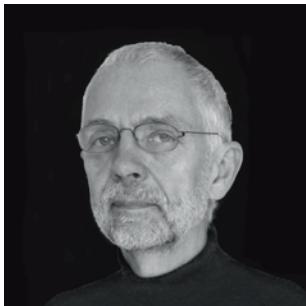

You can choose between a range of different models, and you can combine materials, colours, poles and accessories as you wish.

It is almost like becoming your own MEFA designer!

The designers behind MEFA's models

Klinkby Design

Jørgen Klinkby is a renowned Danish architect and has designed a number of lifestyle products such as lamps for Louis Poulsen and Phillips, sanitary products for Toni Armatur and wrought iron benches. He has won numerous Danish and international design prices.

In his design work Jørgen Klinkby focuses on creating clear, func

tional design and form-related ideas. The ideas are then joined together to form a comprehensible whole with no superfluous parts.

The design of MEFA Beak reflects these ideas by way of its streamlined yet highly different form compared with other mailboxes.

Read more about Jørgen Klinkby at www.jorgenklinkby.dk

Seidenfaden Design Copenhagen

Seidenfaden Design is an internationally renowned Danish design studio, supplying design solutions for major international lifestyle brands such as Weber, Stelton and Georg Jensen. In recent years, Seidenfaden has been awarded several of the world's leading design awards, including the Red Dot Award, IF Design Award and Good Design Award.

With MEFA Judo Seidenfaden Design Copenhagen has created

a modern and architectonic mailbox that adds elegance and character to your driveway or house wall. MEFA Judo represents and expresses the best of contemporary Scandinavian design: smooth, elegant surfaces in a minimalist, architectonic design.

The design studio is also behind MEFA Puffin, whose relaxed and informal round forms have made it Denmark's most popular mailbox.

Read more about Seidenfaden Design at www.seidenfaden.dk

Alice Bigom – AB Design

Alice Bigom trained at the Aarhus School of Architecture and is a partner at 'ABO Plan and Arkitektur' in Bergen, Norway. The daughter of a mailbox manufacturer, she grew up in Denmark.

MEFA Wave is designed as an antithesis to traditional, square mailboxes, inspired by waves and wind with a circle sector as its basic form. MEFA Wave was

originally designed for the Norwegian market, but there was little interest in designer mailboxes in Norway in the 1990s, and the design of Wave was therefore completed in partnership with MEFA and introduced in Denmark in 1998.

Since then, MEFA Wave has gone on to becoming Denmark's most popular designer mailbox!

Read more about ABO Plan & Arkitektur at www.abo-ark.no

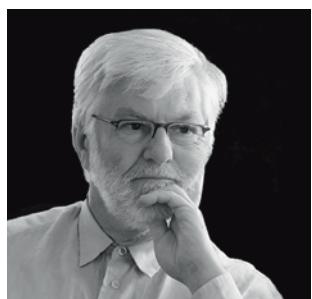

David Lewis Designers

Over several decades David Lewis Designers has designed numerous world-renowned and prize-winning products. David Lewis and his partner Torsten Valeur are currently running the design studio with a small group of staff and take on assignments for international clients such as BANG & OLUFSEN, VOSS, HEKA DENTAL and CT COIN.

With its innovative design of MEFA U:F:O, David Lewis Designers has set a new standard for the mailbox design of the future.

The design is original and full of character but is still able to blend discretely with the surroundings. Despite its airy lightness, the mailbox is surprisingly spacious.

easymount](http://me-fa.com/easymount) or scan
this code.

MEFA Trend

Modern mailboxes for the most discerning and design-conscious audience. The trend series combines stylish design with outstanding quality, selected materials and good durability.

The models have been designed in close collaboration with renowned industrial designers and architects – based on the very best of the Scandinavian design tradition.

MEFA Harmony

MEFA's wide range of quality mailboxes. What they all have in common are the gentle, rounded forms and a harmonious design that suits a broad range of house designs.

In the Harmony series you will also find a number of mailboxes with special functions, such as MEFA Pearl, which has a separate newspaper compartment. All mailboxes are manufactured in high-quality materials.

MEFA Classic

Classic, square mailboxes with the basic functions. A series that emphasises sensible quality at attractive prices.

In other words, MEFA Classic is for those who mainly want a simple mailbox solution.

MEFA Trend

MEFA Beak (440)

Distinctive and untraditional design from Jørgen Klinkby

MEFA Beak is the ultimate luxury mailbox in a simple but characteristic and highly untraditional design. The mailbox is made from polished stainless steel of a sturdy quality, offering exceptional durability.

Design:
Jørgen Klinkby

Materials:
Polished stainless steel of a robust quality

Size:
H: 520 x W: 330 x D: 155 mm
Letter slot 35 x 300 mm
Holds 23 litres

Lock:
MEFA security lock

Colours:
Stainless steel

MEFA Journal (632)

High-quality exclusive mailbox with separate newspaper compartment

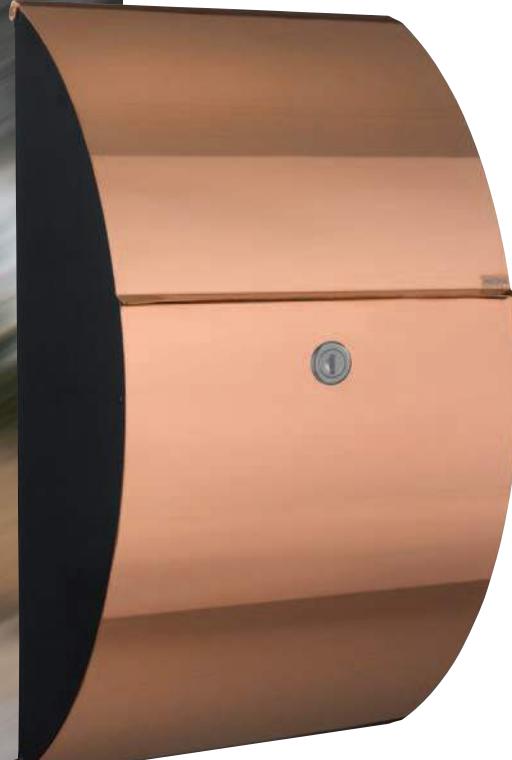

MEFA Journal is the exclusive solution for those who want a locked compartment for letters and an open compartment for newspapers and advertising mail – in a stylish, unified design with a uniform front in either stainless steel, copper or galvanised steel.

Materials:
Powder coated galvanised steel or pure stainless steel

Size:
H: 525 x W: 315 x D: 155 mm
Letter slot 33 x 290 mm
Holds 22 litres

Lock:
MEFA security lock

Colours:
Black textured with a front made from stainless steel or copper.
Or stainless steel throughout

MEFA Judo (640)

Elegant, architectonic mailbox from Seidenfaden Design

MEFA Judo is a large and spacious modern designer mailbox with stylish surfaces. Seidenfaden Design has given Judo a minimalist, architectonic design and combined it with MEFA's well-known strength and quality. This mailbox is easy to empty because the front is designed to serve as a mail tray. And if you want to choose your own colour for your mailbox, you have all imaginable colours to choose from, available at an additional charge.

Design:

Seidenfaden Design Copenhagen

Materials:

Powder coated galvanised steel.
Stylish, glossy surface entirely without visible joints

Size:

H: 490 x W: 350 x D: 155 mm
Letter slot 35 x 260 mm
Holds 23,5 litres

Lock:

MEFA security lock

Colours:

Black textured with a "belt" of stainless steel, glossy white with a glossy black "belt", or grey textured with a glossy black "belt". Available in other colours at an additional charge.

MEFA U:F:O (650)

Floating, light designer mailbox from David Lewis

MEFA U:F:O has been designed by David Lewis Designers in the form of a name plate on a simple, curved panel that floats in front of your house like a beautiful and friendly coat of arms. Airy, floating – and yet surprisingly spacious.

To accompany MEFA U:F:O you can order a stylish engraved name and number plate in a range of colours directly from mefa.dk. It is therefore easy to personalise your MEFA U:F:O with a spectacular finishing touch when moving house, for example. Another innovation is the lock, which is concealed behind the sign.

Design:

David Lewis Designers

Materials:

Powder coated aluminium and galvanised steel

Size:

H: 538 x B: 460 x D: 164 mm
Letter slot 34 x 280 mm
Holds 25 litres

Lock:

MEFA Security lock

Signs:

Comes with a white plate and self-adhesive letters. An engraved sign in the colour of your choice can be ordered from the MEFA website.

Colours:

Glossy black, white or silver grey

MEFA Wave (630) Elegant designer mailbox

The Norwegian architect Alice Bigom has designed MEFA Wave, which has already achieved the status of a modern classic. Together with MEFA Pole 63 you get an elegant design comprising a mailbox, pole, name plate and lamp. Beautiful, characteristic design in a robust, solid quality.

Design:
Alice Bigom

Materials:
Powder coated galvanised steel

Size:
H: 540 x W: 315 x D: 155 mm
Letter slot 37 x 265 mm
Holds 22 litres

Lock:
MEFA security lock

Colours:
Textured black with copper and stainless steel wave and glossy white with stainless steel wave

MEFA Puffin (300) Designer mailbox in a relaxed style from Seidenfaden Design

Seidenfaden Design has created MEFA Puffin with its relaxed and informal, rounded forms that lead the thoughts to the white chest of a puffin. Puffin is a good choice if you want a different designer mailbox at a reasonable price and in a good, solid quality.

Design:
Seidenfaden Design Copenhagen

Materials:
Powder coated galvanised steel with a front made of either stainless steel, galvanised steel or powder coated galvanised steel

Size:
H: 455 x W: 320 x D: 150 mm
Letter slot 35 x 305 mm
Holds 18 litres

Lock:
MEFA security lock

Colours:
Textured black with a front made from either stainless steel, glossy white or galvanised steel

MEFA Harmony

MEFA Opal (840)

Super-sleek mailbox of especially sturdy quality

MEFA Opal is manufactured in an exceptionally robust and sturdy quality and with a sleek, streamlined design. The mailbox has a clever functional design; its lid serves as a mail tray when emptying, for example. If you are looking for a mailbox of a high quality and durability beyond the ordinary, you can choose MEFA Opal in copper or stainless steel.

MEFA Topaz (842)

Mailbox with effective use of space and side-hinged lid

MEFA Topaz is a small and pretty mailbox in a simple design with a side-hinged lid and effective utilisation of the mail compartment. It is particularly suitable if you receive smaller volumes of mail. Available in a range of materials and colours to allow you to choose the right look for you and your home. MEFA Topaz is also available in a luxury finish in copper or stainless steel.

Materials:

Hot-dip galvanised steel, powder-coated galvanised steel, stainless steel or copper

Size:

H: 480 x W: 330 x D: 150 mm

Letter slot 50 x 290 mm

Holds 21 litres

Lock:

MEFA security lock

Colours:

Hot-dip galvanised steel, glossy white, textured black, stainless steel or copper, which patinates naturally over time

Materials:

Stainless steel, copper, galvanised steel or powder coated galvanised steel

Size:

H: 430 x W: 340 x D: 150 mm

Letter slot 35 x 325 mm

Holds 19 litres

Lock:

MEFA security lock

Colours:

Textured black or grey, stainless steel, galvanised steel or copper

MEFA Amber (400)

Extra spacious model of a high quality and classic mailbox design

MEFA Amber has been designed as a typical Danish mailbox of a high quality and with soft lines and many attractive little details. The mail compartment is particularly large and holds substantial quantities of mail. If you would like even better quality, MEFA Amber is also available in stainless steel with extra high durability. MEFA Amber is tailor-made for the elegant MEFA Pole 28.

NYHED: MEFA Amber also available with rear emptying

Materials:

Stainless steel, galvanised steel and powder-coated galvanised steel

Size:

H: 555 x W: 380 x D: 210 mm
Letter slot 35 x 320 mm
Holds 43 litres

Lock:

MEFA security lock

Colours:

Textured black, anthracite grey or glossy white, stainless steel or galvanised steel. The black and anthracite grey models have letter slots in stainless steel

MEFA Amber (401)

With rear emptying

If you need a mailbox that you can position just inside your property, with the front towards the road and emptying from the rear – you can order MEFA Amber (401) from your local dealer. The mailbox is for mounting on MEFA Pole 28. MEFA Amber (401) is otherwise the same as MEFA Amber (400).

Materials:

Powder coated galvanised steel

Colours:

Textured black, anthracite grey or glossy white. The black and anthracite grey models have letter slots in stainless steel

MEFA Quartz (825)

User-friendly mailbox of solid quality

MEFA Quartz is a user-friendly mailbox in a solid quality and great finish, giving you your money's worth. The mailbox has been designed with classic rounded forms and is easy to empty because the base and front serve as a mail tray. You can choose between more than 60 different colours at an additional charge.

Materials:

Galvanised steel or powder coated galvanised steel

Size:

H: 510 x W: 365 x D: 180 mm
Letter slot 40 x 355 mm
Holds 29 litres

Lock:

MEFA security lock

Colours:

Textured black, glossy white, or galvanised steel. You can choose your own colour at an additional charge

MEFA Pearl (872)

Classic mailbox with a practical newspaper compartment

With MEFA Pearl you can easily collect the newspaper without keys. The mailbox consists of a locked compartment for letters and an unlocked, covered compartment for newspapers and advertising mail. All brought together in an elegant design. Excellent quality for the price. You can choose between more than 60 colours at an additional charge.

Materials:

Galvanised steel or powder-coated galvanised steel/stainless steel or copper

Size:

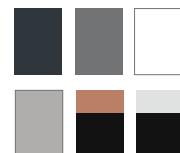

H: 450 x W: 352 x D: 160 mm
Letter slot 35 x 330 mm
Holds 23 litres

Lock:

MEFA security lock

Colours:

Black or grey textured, glossy white, galvanised steel, or black textured with lid from either copper or stainless steel. Other colours available at an additional charge

MEFA Jade (870)

Extra deep and spacious mailbox with a design full of character

MEFA Jade's round top and flat base give the mailbox a particularly distinctive appearance. Compared with cheaper models, you get a more robust and spacious mailbox of a good quality and with great functionality. You can choose your own colour from the full colour range at an additional charge.

Materials:

Galvanised steel or powder-coated galvanised steel

Size:

H: 425 x W: 365 x D: 180 mm
Letter slot 35 x 360 mm
Holds 25 litres

Lock:

MEFA security lock

Colours:

Textured black or grey, glossy white or galvanised steel. The black and grey model has a stainless steel letter slot. Other colours available at an additional charge

MEFA Ruby (864)

Simple and stylish standard mailbox that is easy to empty

MEFA Ruby is a good, simple and stylish mailbox of a sensible quality that keeps your mail tidy when you empty it.

Materials:

Galvanised steel or powder-coated galvanised steel

Size:

H: 450 x W: 350 x D: 150 mm
Letter slot 34 x 320 mm
Holds 20 litres

Lock:

Small security lock

Colours:

Textured black or grey, glossy white or galvanised

MEFA Classic

MEFA Fuga (460) Solid, distinctive mailbox

MEFA Fuga is a solid, distinctive mailbox in galvanised steel with an integrated name plate. MEFA Fuga is the only mailbox that is also available in powder coated stainless steel, which offers extraordinary durability – even in tough climates.

Materials:

Powder-coated galvanised steel or powder coated stainless steel with an aluminium flap

Size:

H: 380 x W: 375 x D: 200 mm
Letter slot 35 x 370 mm
Holds 28 litres

Lock:

MEFA security lock

Colours:

Textured grey with aluminium flap

MEFA Etude (900)

Classic and functional mailbox with extra wide mail slot

A classic, square mailbox with an integrated name plate and an extra wide letter slot – useful if you often receive extra large letters, for example. Sensible quality, giving you a lot for your money.

Materials:

Pulverlackerat galvaniserat stål

Size:

H: 375 x W: 420 x D: 202 mm
Letter slot 35 x 375 mm
Holds 31 litres

Lock:

MEFA security lock

Colours:

Glossy white or black structured. The black model has a silver-coloured flap

MEFA Opus (600)

Light mailbox made from aluminium

MEFA Opus differs from most other mailboxes in that it is made from aluminium. It is therefore lighter in weight and is particularly suitable where a light mailbox is required. Aluminium is also especially resistant to wind and weather and highly suitable for the Danish coastal climate, for example.

Materials:

Powder coated aluminium box with an aluminium front

Size:

H: 365 x W: 377 x D: 205 mm
Letter slot 40 x 355 mm
Holds 26 litres

Lock:

MEFA security lock

Colours:

The front is made from aluminium, while the frame is either glossy white or textured grey

MEFA Piano (350)

Narrow, tall mailbox with integrated name plate

MEFA Piano is a tall, narrow and elegant model, particularly suitable where there is limited space. The mailbox has an integrated name plate. MEFA Piano offers sensible quality at a reasonable price. For a higher quality mailbox, choose MEFA Piano in stainless steel.

Materials:

Galvaniserat stål, pulverlackerat galvaniserat stål eller rostfritt stål

Size:

H: 470 x W: 345 x D: 170 mm
Letter slot 40 x 290 mm
Holds 27 litres

Lock:

MEFA security lock

Colours:

Black or grey structured, glossy white, galvanised or stainless steel. The three painted models have aluminium letter slots

MEFA Minuet (99)

Small, square mailbox of a sensible quality and in a simple style

MEFA Minuet is a classic, square model in a sensible quality and with a small safety lock. This mailbox is ideal if you usually receive smaller quantities of mail. It can be accessed with one hand. If you are looking for a slightly sturdier finish, you can choose MEFA Minuet in stainless steel.

Materials:

Powder coated galvanised steel or stainless steel

Size:

H: 310 x W: 385 x D: 137 mm

Letter slot 30 x 355 mm

Holds 15 litres

Lock:

Small safety lock

Colours:

Textured black or grey, glossy white or stainless steel. The three painted models have aluminium letter slots

MEFA Adagio (57)

Simple mailbox in good quality without lock

MEFA Adagio is a very simple and roomy mailbox without lock.

Materials:

Painted galvanised steel

Size:

H: 433 x W: 337 x D: 195 mm

Letter slot 30 x 230 mm

Holds 28 litres

Lock:

No lock

Colours:

Black, white, green and silver

MEFA Rondo (58)

Simple mailbox in good quality with twist lock

MEFA Rondo is a very simple mailbox with twist lock.

Materials:

Painted galvanised steel

Size:

H: 400 x W: 280 x D: 140 mm

Letter slot 30 x 230 mm

Holds 16 litres

Lock:

Twist lock

Colours:

Anthracite grey and white

Get a pole to suit your needs

MEFA Pole 22

Small, arched pole that underlines the forms of your mailbox

MEFA Pole 22 is a simple and small, arched pole that sits discretely in the background once the mailbox has been fitted. Most MEFA mailboxes can be fitted directly onto the pole. However, MEFA U:F:O (650) must be fitted using the MEFA mounting plate 35. Also available in copper or stainless steel.

Materials:

Galvanised powder coated steel, stainless steel or copper

Colours:

Glossy white, textured black, textured grey, galvanised steel, copper or stainless steel

Dimensions in mm:

H: 1150 mm Ø: 38 mm pipe
(copper Ø: 35 mm pipe)

Mounting:

With "MEFA Easy Mounting" (available separately) or on concrete mounting base

MEFA Pole 28

Frames the mailbox with a stylish soft and wide arch

MEFA Pole 28 creates a stylish arch around the mailbox once it has been fitted. The pole frames and accentuates the design of the mailbox, in particular MEFA Amber (400).

MEFA mailboxes Amber (400), MEFA Quartz (825) and MEFA Jade (870) are mounted directly onto the pole. Other MEFA mailboxes are fitted using MEFA mounting plate 28, available separately. MEFA Pole 28 is also available in stainless steel.

Materials:

Galvanised powder coated steel or stainless steel

Colours:

Glossy white, textured black, galvanised steel and stainless steel

Dimensions in mm:

H: 1310 mm Ø: 38 mm pipe

Mounting:

With "MEFA Easy Mounting" (purchased separately) or on concrete mounting base

Many homeowners need to mount their mailbox on a separate pole. MEFA offers a range of poles and mountings in both classic, modern and more untraditional styles.

Scan and read
more about poles

MEFA Pole 72

Simple, minimalist pole to match design mailboxes

MEFA Pole 72 is a narrow, rectangular pole. Its simple, minimalist forms discretely accentuate the lines of your mailbox's design. It complements MEFA's design mailboxes and is of course available in colours that perfectly match MEFA U:F:O. MEFA U:F:O (650) can be fitted directly onto the pole. MEFA Pole 72 is also available in stainless steel.

Materials:

Galvanised powder coated steel or stainless steel

Dimensions in mm:

H: 1100 x W: 205 x D: 47 mm

Colours:

Glossy white, glossy black, glossy silver grey, textured black, galvanised steel and stainless steel

Mounting:

With "MEFA Easy Mounting" (available separately) or on concrete mounting base

MEFA Pole 63

Elegant and harmonious complete solution with integrated lighting and name plate

MEFA Pole 63 is an exclusive total solution with an integrated halogen/LED lamp and name plate ready for engraving. Its simple, minimalist forms discretely accentuate the lines of your mailbox design.

The pole is particularly suitable for MEFA mailboxes without integrated name plates, in particular MEFA Wave (630).

MEFA Pole 63 is also available in stainless steel.

Materials:

Galvanised powder coated steel, stainless steel or copper

Dimensions in mm:

H: 1545 x W: 300 x D: 60 mm

Colours:

Black/copper, black/stainless steel, white/stainless steel and pure stainless steel

Accessories:

Supplied with transformer and halogen bulb. Authorised electrician not required for installation

Mounting:

Mount with "MEFA Easy Mounting" (available separately) or on concrete mounting base.

See which poles fit the various MEFA mailboxes

Many homeowners need to mount their mailbox on a separate pole. MEFA offers a range of poles and mountings in both classic, modern and more unconventional styles.

How to install your MEFA parcel mailbox

1. "MEFA Easy Mounting" – it doesn't get easier than this!

You can quickly and easily install your new MEFA mailbox with "MEFA Easy Mounting".

MEFA Easy Mounting eliminates the need for heavy duty soil and concrete work, and it is easy to position the pole vertically. The system is also highly flexible. Replacing the MEFA pole is easy, as is moving it by simply pulling up the earth rods and repositioning the mounting rails.

"MEFA Easy Mounting" is purchased separately. "MEFA Easy Mounting" has been developed in collaboration with GroundPlug®.

12-year guarantee against rust penetration

Materials:

Steel

Dimensions:

Mounting rails:
H: 60 mm x L: 400 mm.
Earth rods: L: 500 mm, D: 20 mm

Watch the installation video at me-fa.com/easymount or scan this code.

2. Concrete in ground – traditional and inconvenient

You can also mount your mailbox by embedding the pole in the ground using concrete or cement. This method takes longer and requires some heavy duty ground and concrete work. We therefore recommend MEFA Easy Mounting (see above).

See which poles and other installation accessories fit each individual mailbox on page 26. Or scan the code here.

MEFA mounting plate 28

For mounting pole 28. Some models require MEFA mounting fitting 28 for mounting onto MEFA pole 28. Read more under the description of each mailbox.

MEFA mounting plate 35

For brick or woodwork.

Colours:

Glossy white, glossy black and silver grey

Materials:

Galvanised powder coated steel

MEFA is the largest Nordic manufacturer of mailboxes and mailbox systems.

For more than 40 years MEFA has supplied Denmark with mailboxes of a design and quality that ensures unrivalled functionality and long durability. As well as being Denmark's leading supplier, MEFA also exports to the other Nordic countries and to countries such as the UK, Germany, the Netherlands, the Czech Republic, Belgium and Japan.

MEFA is a part of the RENZ Group, Europe's leading manufacturer of commercial mailbox systems.
