

MAILFORCE 3 FIXED DEPTH CHUTE

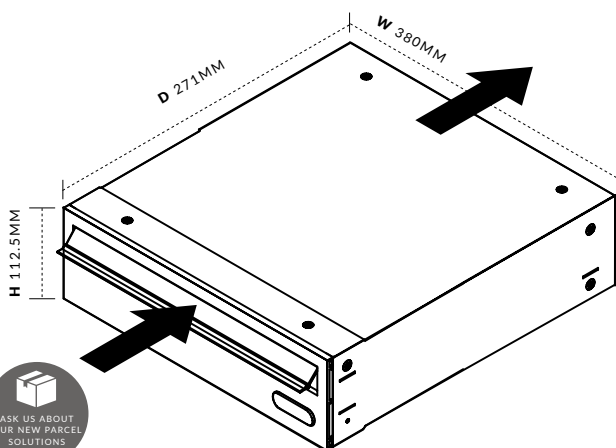

The Mailforce 3 Fixed Depth mail chute is designed for secure through-the-wall mail storage. Typically installed in an external property wall, it features an aperture on one side for mail posting and a locked door on the opposite side, accessible only with a coded key.

This model is better suited for properties with limited wall depth compared to the Mailforce 1 and 2 models. The Mailforce 3 can be customised with one colour on the front face and a different colour on the rear door, ensuring it meets the design specifications of any project.

DIMENSIONS

APERTURE SIZE (MM): 18H X 350W

MAILBOX FEATURES:
