

TILE MAILBOX

Postmark Project

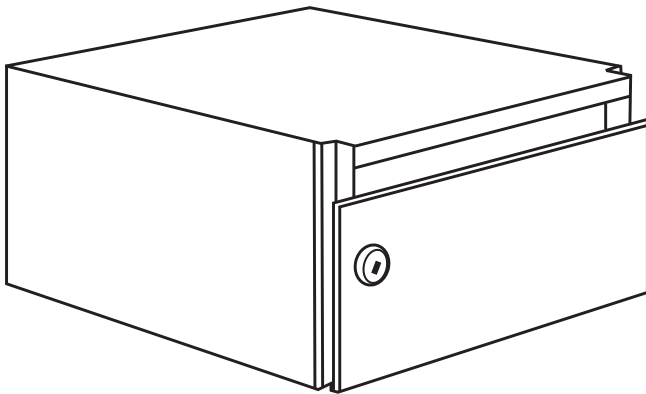

The tile mailbox is an in front/out front horizontal product that has been manufactured to offer a number of finishes on the front face of the product. Ideal for meeting specific design and style requirements.

This mailbox features an accessible aperture opening with no mail flap as this product uses a full front opening door with a hidden hinge, sitting just 2mm from the mailbox in a row and offering a subtle shadow line.

This mailbox can be wall recessed, wall mounted or installed freestanding to suit the installation.
