

CHUTED 1 MAILBOX DATASHEET

Design to Installation

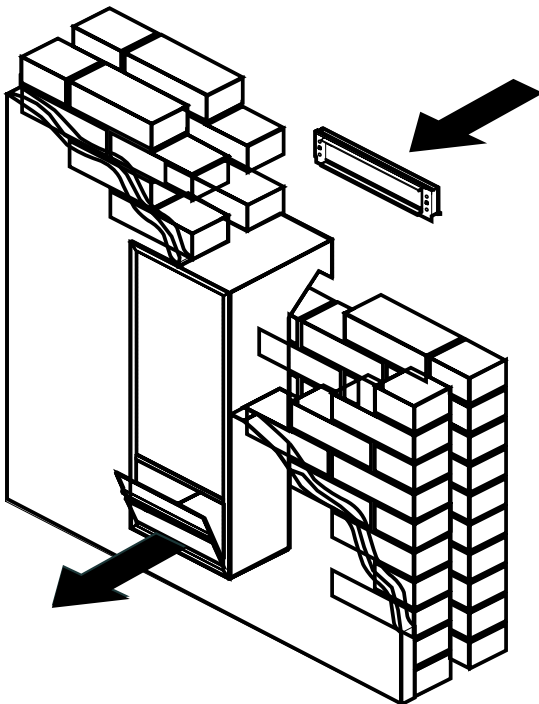

The Chuted 1 mailbox is an in-front, out-back solution designed for installation within an exterior wall, allowing it to handle large volumes of mail. It is ideal for secure locations such as government buildings, schools, and medical facilities where interior areas need to remain restricted.

The Chuted 1 mailbox is custom-made to meet the unique specifications of each project, with adjustable dimensions to suit individual requirements. It is equipped with an SLB security lock and comes with two coded keys as standard for easy and secure access to delivered items.
