

CHUTED 3 MAILBOX DATASHEET

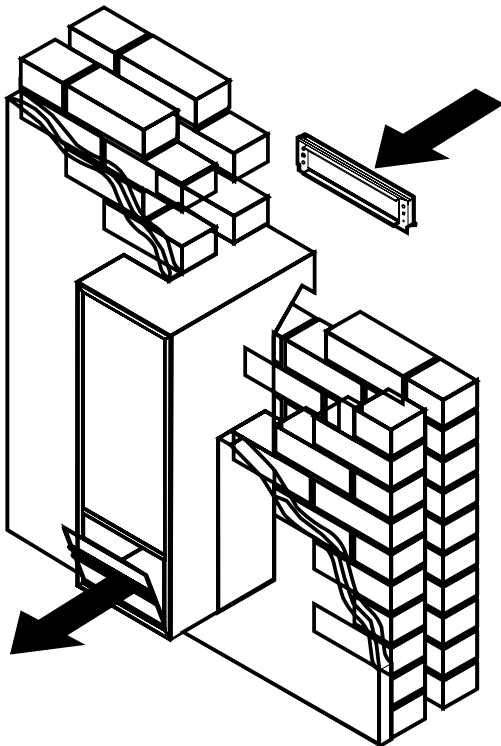

Design to Installation

The Chuted 3 mailbox is an in-front, out-back mail chute designed for installation within an exterior wall, capable of receiving large volumes of mail, which can later be retrieved from the interior side of the wall.

This variation of the Chuted model features a slightly reduced height, making it ideal for projects with limited wall height for installation.

DIMENSIONS

APERTURE SIZE (MM): 40H X 235W

MAILBOX FEATURES:
