

# MAILFORCE 1

## FIXED DEPTH CHUTE

### DATASHEET

Design to Installation

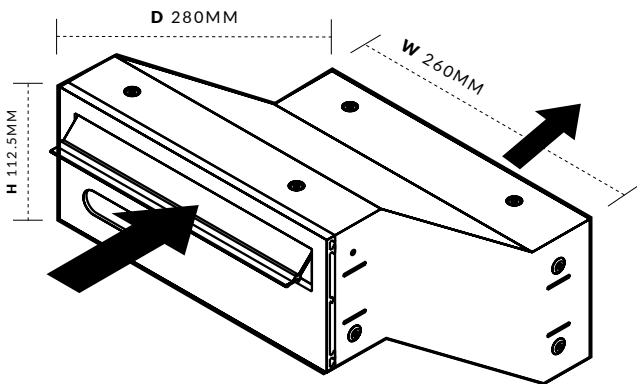

The Mailforce 1 Fixed Depth mail chute is designed for secure through-the-wall mail storage.

It is typically installed in an external property wall, with an aperture on one side for mail to be posted through and a locked door on the other side that can only be accessed with a coded key.

The Mailforce 1 can be customised with a different colour on the front face and the rear door, allowing it to meet the specific design requirements of any project.
