

MAILFORCE 2

TELESCOPIC DEPTH CHUTE

DATASHEET

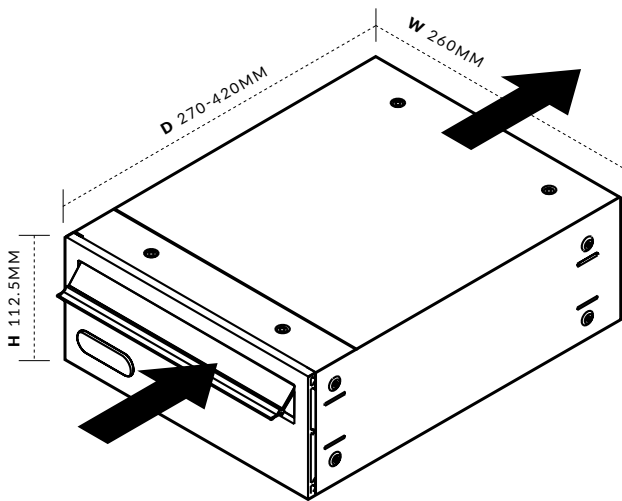

The Mailforce 2 Telescopic depth mail chute is designed for secure through-the-wall mail storage. Typically installed in an external property wall, it features an aperture on one side for posting mail and a locked door on the other, accessible only with a coded key.

The telescopic version of the Mailforce 2 is ideal for developments with variable external wall depths or when the exact depth is unknown, accommodating dimensions between 270mm and 420mm.
